INDEX TO VOLUME XXXVI, 1942

INDEX TO VOLUME XXXVI, 1942

A

Achelis, Elisabeth, A Perpetual Calendar, 25.
Adams, W. S., Research at Mount Wilson Observatory, 393.
Aluminizing Tank for the David Dunlap Observatory, *R. K. Young*, 1.
Amateur Seismology in the Making, *Edward Mantle*, 41.
American Association of Variable Star Observers — Thirty-first Annual Meeting, *D. W. Rosebrugh*, 421.
Anderson, J. A., The Astrophysical Observatory of the California Institute of Technology, 177.
Anniversaries, True, *C. E. White*, 131.
Apgar, Charles E. (see Notes and Queries)
A Quoi sert l'Astronomie? *J. Edgar Guimont*, 329.
Asteroids, The, *E. S. Keeping*, 411.
Astrology Again, *C. A. Chant*, 55.
Astronomers, Early American, *S. A. Mitchell*, 345.
Astronomical Affairs in Mexico, 122.
Astronomie? A Quoi sert l', *J. Edgar Guimont*, 329.
Astrophysical Observatory of the California Institute of Technology, The, *J. A. Anderson*, 177.
Atmospheric Phenomena in the Lunar Crater *Conon*, Possible, *Frank Vaughn, Jr.*, 49.
Aurora, April 3, 1942, A Very Bright, 219.
Aurore Boréale venant du Sud, *J. E. Guimont*, 409.
Aurora seen from Sleeping-car and Atlantic Clipper, 40.

B

Barker, H. W., On Passing Three Score Years and Ten (poem) 479.
Beals, C. S., On the P Cygni Characteristics of H.D. 190073 and the Dimensions of its Emitting and Absorbing Shells, 145, 201.
Books on the Weather for Amateurs, *Alvin Thiessen*, 289.
British Contributions to Geomagnetism, 36.
British Nautical Almanac, The, 36.
Broadhead, Norman H., (obituary) 121.
Brydon, H. Boyd, A Yoke Mounting for the Six-inch Telescope, 17; Reward (poem), 158; Presentation of the 1941 Chant Medal to, *K. O. Wright*, 97.

C

Calendar, A Perpetual, *Elisabeth Achelis*, 25.
Calendar Date by Key Number, *C. E. White*, 451.
Calendar Mnemonics and Mnemonic Calendars, *C. E. White*, 133.
California Institute of Technology, The Astrophysical Observatory of the, *J. A. Anderson*, 177.
Campbell, J. W. (see Notes and Queries).
Chant, C. A., Astrology Again, 55; Conversion of Mean and Sidereal Time, 473; The Ville Marie Observatory at Montreal, 137 (see also Notes and Queries and Reviews).
Chant Medal to H. Boyd Brydon, Presentation of the 1941, *K. O. Wright*, 97.
Civil Week and Mental Week, The, *C. E. White*, 449.
Constant of Gravitation, The, 165, 221.
Conversion of Mean and Sidereal Time, *C. A. Chant*, 473.
Corona, The Nature of the Solar, *William Petrie*, 312.
Cosmic Dust, Effects of Radiation Pressure on, *Francis P. Morgan*, 441.

D

Dates by the Sunday Number, *C. E. White*, 454.
David Dunlap Observatory, Aluminizing Tank for the, *R. K. Young*, 1; Communications from the, 1, 213; Outline of Work July 1940 - July 1941, *R. K. Young*, 142.
Deep Sea Diving, 166.
Depression of Lunar Craters, The, *Thomas L. MacDonald*, 159.
Depuis 400 Ans, *A.-V. Madge*, 445.
Does Anything Ever Happen on the Moon? *Walter H. Haas*, 237, 317, 361, 397.
Dominion Astrophysical Observatory, Victoria, B.C., Report of the, *J. A. Pearce*, 273.

E

Early American Astronomers, *S. A. Mitchell*, 345.
Earth from the Sun? How Far is the, 37.
Earth's Orbit, The, 35.
Effects of Radiation Pressure on Cosmic Dust, *Francis P. Morgan*, 441.
Equation of Time, The, 427.
Everall, Capt. W. M., (obituary), 336.

F

Frequency - Distribution through the Year of Abnormally High and Low Daily Mean Temperatures at Toronto, The, *Richmond W. Longley*, 225.

G

Galaxy, Rotation of the, 124.
Geomagnetism, British Contributions to, 36.
Globular Cluster 47 Tucanae, Distance of, 122.
Gravitation, The Constant of, 165, 221.
Gregory, Sir Richard, Pure and Applied Science, 13.
Guimont, J. Edgar, A Quoi sert l'Astronomie? 329; Aurore Boréale venant du Sud, 409.

H

H. D. 190073 and the Dimensions of its Emitting and Absorbing Shells, On the P Cygni Characteristics of, *C. S. Beals*, 145, 201.
Haas, Walter H., Does Anything Ever Happen on the Moon? 237, 317, 361, 397.
Halley, Edmund, and Isaac Newton, 425.
Heating Processes in Samoa, 38.
Help, instead of Hindrance, from Difficulty, 291.
Her Majesty's Magnetical and Meteorological Observatory, Toronto, *A. D. Thiessen*, 61, 457.
High Noon, 77.
Hogg, Frank S., Navigation by the Stars, 81 (see also Notes and Queries and Reviews).
Hogg, Helen B. S. (see Reviews and also under Sawyer, Helen B.).
How Far is the Earth from the Sun?, 37.

I

Indian Summer, 427.
Injury to the Poulkovo Observatory, 39.

J

Junior Astronomical Club, The Ottawa, 218, 222.
Jupiter and Satellites I, II, III, IV, during 1943, 478.

K

Keeping, E. S., The Asteroids, 411.

L

Lectures before the Society:
EDMONTON CENTRE—The Tides, *J. A. McLean*, 429; The Origin of the Earth, *M. Crockford*, 430; Some Limitations of Astronomy, *C. G. Wates*, 431; Asteriods, *E. S. Keeping*, 432; Universal Gravitation, *Dr. Scott*, 434.
OTTAWA CENTRE — Air Navigation, *Flight Lieutenant F. J. Brand*, 224;

Life in the Universe, *R. Meldrum Stewart*, 224; The Electron Microscope, *E. F. Burton*, 295.

Toronto Centre—The Aluminizing Chamber for the 74-inch Mirror, *G. F. Longworth*, 79; Explorations in Clusters and Nebulae: Galactic Clusters, *Helen S. Hogg*, 80; Waves in Light and Sound, *Florence Quinlan*, 126; Globular Star Clusters, *Helen S. Hogg*, 127; Telescope Construction and Mirror Testing, *W. T. Patterson*, 127; Dark Diffuse Nebulae, *Helen S. Hogg*, 128; Other Milky Ways, *F. Shirley Patterson*, 292; Luminous Diffuse Nebulae, *Helen S. Hogg*, 292; Pathways to the Stars, *Ruth J. Northcott*, 293; Planetary Nebulae, *Helen S. Hogg*, 293; Biblical Astronomy, *Rev. T. Christie Innis*, 383; Extragalactic Nebulae, *Helen S. Hogg*, 385; Recent Astronomical Books, *Edna M. Fuller*, 386; The Local Group of Galaxies, *Helen S. Hogg*, 386; The Magnitudes of the Stars, *C. A. Chant*, 387; The Velocity-Distance Relationship, *Helen S. Hogg*, 389; Astronomical Errors in Literature, *H. W. Barker*, 435; Supernovae, *Helen S. Hogg*, 437; Messages from the Stars — Spectroscopy, *D. W. Best*, 438; A Survey of the Physical Universe, *Helen S. Hogg*, 439.

Vancouver Centre—Sun-dials, *N. D. Blagdon Phillips*, 390; Stellar Motions, *J. A. Pearce*, 391; Minerals and Politics, *H. V. Warren*, 392.

Victoria Centre — Some Applications of Radial Velocities, *J. A. Pearce*, 340; The Earth as an Astronomical Body, *W. H. Stilwell*, 340; The Progression of the Zodiac, *J. G. Buchler*, 341; The Vault of the Heavens, *W. R. Hobday*, 341; Light, Lenses and Mirrors, *Gordon Shaw*, 342; Ships and Stars, *Lieut.-Com. H. R. Tingley*, 342; The Wandering Worlds (symposium), *Miss C. Hailstone, Miss Y. Langworthy* and *Miss M. Oliphant*, 343; The Changing Stars, *Mrs. Phoebe Noble*, 344.

Winnipeg Centre—The Age of the Earth, *L. W. Koser*, 167; The Temperature and Source of the Heat of the Sun, *W. A. Anderson*, 174; The Atom, *H. H. Saunderson*, 176; The Surface of the Moon, *L. T. S. Norris-Elye*, 338; Early Mathematics relating to Astronomy, *G. P. Morse*, 338; The Vision of the Human Eye, *W. P. Johnson*, 339.

Longley, Richmond W., The Frequency-Distribution through the Year of Abnormally High and Low Daily Mean Temperatures at Toronto, 225.

Lunar Crater *Conon*, Possible Atmospheric Phenomena in the, *Frank Vaughn, Jr.*, 49.

Lunar Craters, The Depression of, *Thomas L. MacDonald*, 159.

Lunar Eclipse on March 2, 1942, Observations of the, 220.

M

Madge, A.-V., Depuis 400 Ans, 445.

Magnetical and Meteorological Observatory, Toronto, Her Majesty's, *A. D. Thiessen*, 61, 457.

Mantle, Edward, Amateur Siesmology in the Making, 41.

Mars, The Painted Deserts of, 123.

Messier 4, A Semiregular Variable in, *Helen B. Sawyer*, 213.

Meteor Observation in the U.S.S.R. in the Summer of 1941, 164.

Meteorological Observatory, Toronto, Her Majesty's Magnetical and, *A. D. Thiessen*, 61, 457.

Meteors, Observations of the 1942 Perseid, 379.

Mexico, Astronomical Affairs in, 122.

Mitchell, S. A., Early American Astronomers, 345.

Montreal, The Ville Marie Observatory at, *C. A. Chant*, 137.

Moon? Does Anything Ever Happen on the, *Walter H. Haas*, 237, 317, 361, 397.

Morgan, Francis P., Effects of Radiation Pressure on Cosmic Dust, 441.

Mount Wilson Observatory, Research at, *W. S. Adams*, 393.

N

Napoleon's Remains from St. Helena to France, October 1840, The Removal of, *A. D. Thiessen*, 66.
Nature of the Solar Corona, The, *William Petrie*, 312.
Navigation by the Stars, *Frank S. Hogg*, 81.
New Centre of the Society in Quebec, A, 218.
New Distant Planet, A, 478.
Newton, Isaac, and Edmund Halley, 425.
Northcott, R. J. (see Notes and Queries).
Notes and Queries, 35, 76, 121, 164, 218, 291, 336, 379, 425, 478.

O

Obituaries: Broadhead, N. H., 121; Everall, W. M., 336; Tidy, G. H., 129.
Observations of the Lunar Eclipse on March 2, 1942, 220.
On the P Cygni Characteristics of H.D. 190073 and the Dimensions of its Emitting and Absorbing Shells, *C. S. Beals*, 145, 201.
Ottawa Junior Astronomical Club, The, 218, 222.

P

Patterson, John, Honour for, 218.
Perpetual Calendar, A., *Elisabeth Achelis*, 25.
Perseid Meteors, Observations of the 1942, 379.
Petrie, William, The Nature of the Solar Corona, 312.
Plaskett, John S., at the University of Toronto, 121.
Positions of the Stars, The, 76.
Possible Atmospheric Phenomena in the Lunar Crater *Conon*, *Frank Vaughn, Jr.*, 49.
Poulkovo Observatory, Injury to the, 39.
Pure and Applied Science, *Sir Richard Gregory*, 13.

Q

Quebec, A New Centre of the Society in, 218.

R

Radiation Pressure on Cosmic Dust, Effects of, *Francis P. Morgan*, 441.
Rainbow, Driving through a, 428.
Rainbows, Thoreau's, 380.
Reflector Available, An Eighteen Inch, 337.
Reviews of Publications:
Berry, R. E., Yankee Stargazer, *F.S.H.*, 333.
Campbell, Leon and Luigi Jacchia, The Story of Variable Stars, *F.S.H.*, 74.
Chandrasekhar, S., Principles of Stellar Dynamics, *R.K.Y.*, 377.
Chapman, S., Edmond Halley as Physical Geographer, and the Story of his Charts, *C.A.C.*, 33.
Duncan, J. C., Essentials of Astronomy, *C.A.C.*, 335.
Levitt, I. M. and Marshall, R. K., Star Maps for Beginners, *F.S.H.*, 377.
Reichenbach, Hans, From Copernicus to Einstein, *C.A.C.*, 335.
Saile, Olaf, Troubadour of the Stars, *H.B.S.H.*, 163.
Seares, F. H. and others. Magnitudes and Colors of Stars North of +80°, *H.B.S.H.*, 32.
Shaw, R. William and Samuel L. Boothroyd, Manual of Astronomy, *R.K.Y.*, 74.
University of Pennsylvania. Publications. Astronomical Series, v. 5, pt. 3 and v. 6, pts. 1-5, *F.S.H.*, 288.
Wenstrom, W. H., Weather and the Ocean of Air, *Alvin Thiessen*, 334.
Whipple, F. L., Earth, Moon and Planets, *C.A.C.*, 33.
Reward (poem) *H. Boyd Brydon*, 158.
Rosebrugh, D. W., Thirty-first Annual Meeting of the A.A.V.S.O., 421.
Rotation of the Galaxy, 124.

Royal Astronomical Society of Canada, Annual At-Home, 125; Annual Meeting, 101; A New Centre in Quebec, 218; Elected Members-at-Large, 120.

S

Sawyer, Helen B., A Semiregular Variable in Messier 4, 213 (see also under Hogg, H. B. S.).
Science, Pure and Applied, *Sir Richard Gregory*, 13.
Seismology in the Making, Amateur, *Edward Mantle*, 41.
Semiregular Variable in Messier 4, A, *Helen B. Sawyer*, 213.
Solar Corona, The Nature of the, *William Petrie*, 312.
Space, Time and Meaning, *Cyril G. Wates*, 297.
Stars, The Positions of the, 76.
Summer, Indian, 427.

T

Telescope, A Yoke Mounting for the Six-inch, *H. Boyd Brydon*, 17.
Temperatures at Toronto, The Frequency-Distribution through the Year of Abnormally High and Low Daily Mean, *Richmond W. Longley*, 225.
Tempering Steel in Inner Mongolia, 77.
Thiessen, Alvin, Books on the Weather for Amateurs, 289; Her Majesty's Magnetical and Meteorological Observatory, Toronto, 61, 457; The Removal of Napoleon's Remains from St. Helena to France, October 1840, 66 (see also Reviews).
Thoreau's Rainbows, 380.
Tidy, George Horace, (obituary) *R. K. Young*, 129.
Time and Meaning, Space, *Cyril G. Wates*, 297.
Time, Conversion of Mean and Sidereal, *C. A. Chant*, 473.
Time, The Equation of, 427.
Toronto Summer Meetings, 480.
True Anniversaries, *C. E. White*, 131.

U

Undergraduate Mathematics at the University of Toronto, 220.
U.S.A.—1942, 78.

V

Variable in Messier 4, A Semiregular, *Helen B. Sawyer*, 213.
Vaughn, Frank, Jr., Possible Atmospheric Phenomena in the Lunar Crater *Conon*, 49.
Victoria Summer Course in Astronomy, 337.
Ville Marie Observatory at Montreal, The, *C. A. Chant*, 137.

W

Wates, Cyril G., Space, Time and Meaning, 297.
Weather for Amateurs, Books on the, *Alvin Thiessen*, 289.
Week and Mental Week, The Civil, *C. E. White*, 449.
White, C. E., Calendar Mnemonics and Mnemonic Calendars, 133; Calendar Date by Key Number, 451; The Civil Week and Mental Week, 449; Dates by the Sunday Number, 454; True Anniversaries, 131.
Wright, K. O., Presentation of the 1941 Chant Medal to H. Boyd Brydon, 97.

Y

Yoke Mounting for the Six-inch Telescope, A, *H. Boyd Brydon*, 17.
Young, R. K., Aluminizing Tank for the David Dunlap Observatory, 1; David Dunlap Observatory—Outline of Work July 1940—July 1941, 142; George Horace Tidy (obituary), 129 (see also Reviews).

THE JOURNAL
OF
THE ROYAL ASTRONOMICAL SOCIETY OF CANADA

DEVOTED TO THE ADVANCEMENT OF ASTRONOMY AND ALLIED SCIENCES

EDITOR, C. A. CHANT

ASSISTANT EDITOR, F. S. HOGG

David Dunlap Observatory
Richmond Hill P.O., Ont.

ASSOCIATE EDITORS

R. MELDRUM STEWART
Dominion Astronomer
Ottawa

J. A. PEARCE
Head Astronomer
Dominion Astrophysical Observatory
Victoria, B.C.

J. PATTERSON
Controller of the Meteorological Service of Canada, Toronto

PUBLISHED MONTHLY
(Ten numbers per year)

VOLUME XXXVI, 1942

PRINTED FOR THE SOCIETY
TORONTO: 198 COLLEGE ST.

THE UNIVERSITY OF TORONTO PRESS

CONTENTS FOR VOLUME XXXVI, 1942

I. JANUARY

Aluminizing Tank for the David Dunlap Observatory (with Plates I-III) ..... *R. K. Young* 1
Pure and Applied Science ..... *Sir Richard Gregory* 13
A Yoke Mounting for the Six-inch Telescope ..... *H. Boyd Brydon* 17
A Perpetual Calendar ..... *Elisabeth Achelis* 25
Review of Publications (*Magnitudes and Colors of Stars North of +80°*, by F. H. Seares, F. E. Ross and Mary C. Joyner; *H.B.S.H. Edmond Halley as Physical Geographer, and the Story of his Charts*, by S. Chapman; *C.A.C. Earth, Moon and Planets*, by Fred L. Whipple; *C.A.C.*) 32
Notes and Queries (Query—The Earth's Orbit; *C.A.C.* The British Nautical Almanac; *F.S.H.* British Contributions to Geomagnetism; How far is the Earth from the Sun? Heating Processes in Samoa; Injury to the Poulkovo Observatory; Aurora seen from Sleeping-car and Atlantic Clipper; *C.A.C.*) 35
The Editor to the Secretaries of Centres 40

II. FEBRUARY

Amateur Seismology in the Making (with Plate IV) ..... *Edward Mantle* 41
Possible Atmospheric Phenomena in the Lunar Crater *Conon* ..... *Frank Vaughn, Jr.* 49
Astrology Again ..... *C. A. Chant* 55
Her Majesty's Magnetical and Meteorological Observatory, Toronto ..... *A. D. Thiessen* 61
The Removal of Napoleon's Remains from St. Helena to France, October 1840 ..... *A. D. Thiessen* 66
Review of Publications (*Manual of Astronomy*, by R. William Shaw and Samuel L. Boothroyd; *R.K.Y. The Story of Variable Stars*, by Leon Campbell and Luigi Jacchia; *F.S.H.*) 74
Notes and Queries (Query—The Positions of the Stars; *R.J.N.* High Noon; Tempering Steel in Inner Mongolia; The U.S.A.—1942; *C.A.C.*) 76
Meetings of the Society—Toronto 79

III. MARCH

Navigation by the Stars (Presidential Address) ..... *Frank S. Hogg* 81
Presentation of the 1941 Chant Medal to H. Boyd Brydon ..... *K. O. Wright* 97
Annual General Meeting of the Royal Astronomical Society of Canada: Reports of the Recorder, General Secretary, General Treasurer, Librarian, Secretaries and Treasurers of the Centres; Officers of the Centres for 1942 101
Recently Elected Members-at-Large 120
Notes and Queries (Death of Norman H. Broadhead; John S. Plaskett at the University of Toronto; Astronomical Affairs in Mexico; Distance of Globular Cluster 47 Tucanae; The Painted Deserts of Mars; Rotation of the Galaxy; *C.A.C.*) 121
Meetings of the Society—Society At-Home, Ottawa, Toronto 125

IV. APRIL

George Horace Tidy (with Plate V) ..... *R. K. Young* 129
True Anniversaries ..... *C. E. White* 131
Calendar Mnemonics and Mnemonic Calendars ..... *C. E. White* 133
The Ville Marie Observatory at Montreal (with Plate VI) ..... *C. A. Chant* 137
David Dunlap Observatory—Outline of Work, July 1940-July 1941 ..... *R. K. Young* 142
On the P Cygni Characteristics of H.D. 190073 and the Dimensions of its Emitting and Absorbing Shells ..... *C. S. Beals* 145
Reward (*poem*) ..... *H.B.B.* 158
The Depression of Lunar Craters ..... *T. L. MacDonald* 159
Review of Publications (*Troubadour of the Stars*, by Olaf Saile; *H.B.S.H.*) 163
Notes and Queries (Meteor Observations in the U.S.S.R. in the Summer of 1941; The Constant of Gravitation; Deep Sea Diving; *C.A.C.*) 164
Meetings of the Society—Winnipeg 167

V. MAY-JUNE

The Astrophysical Observatory of the California Institute of Technology (with Plates VII-X) ..... *J. A. Anderson* 177
On the P Cygni Characteristics of H.D. 190073 and the Dimensions of its Emitting Shells (continued) ..... *C. S. Beals* 201
A Semiregular Variable in Messier 4 ..... *Helen B. Sawyer* 213
Notes and Queries (A New Centre of the Society in Quebec; *F.S.H.* Honour for Mr. John Patterson; *C.A.C.* The Ottawa Junior Astronomical Club; *F.S.H.* A Very Bright Aurora, April 3, 1942; *C.A.C.* Undergraduate Mathematics at the University of Toronto; *F.S.H.* Observations of the Lunar Eclipse on March 2, 1942; *F.S.H.* Correction to April Number; *C.A.C.*) 218
Meetings of the Society—Ottawa Junior Astronomical Club, 1941-42; Ottawa 222

VI. JULY-AUGUST

The Frequency-Distribution through the Year of Abnormally High and Low Daily Mean Temperatures at Toronto ..... *Richmond W. Longley* 225
Does Anything Ever Happen on the Moon? (with Plates XI-XV) ..... *Walter H. Haas* 237
Report of the Dominion Astrophysical Observatory, Victoria, B.C., for the Years 1940 and 1941 (with Plate XVI) ..... *J. A. Pearce* 273
Review of Publications (*Publications of the University of Pennsylvania—Astronomical Series, v. 5, pt. 3, and v. 6, pts 1-5*: *F.S.H.* Books on the Weather for Amateurs; *Alvin Thiessen*) 288
Notes and Queries (Help, instead of Hindrance, from a Difficulty; *J. W. Campbell*) 291
Meetings of the Society—Toronto, Ottawa 292

VII. SEPTEMBER

Space, Time and Meaning ..... *Cyril G. Wates* 297
The Nature of the Solar Corona ..... *William Petrie* 312
Does Anything Ever Happen on the Moon? (continued) ..... *Walter H. Haas* 317

A Quoi sert l'Astronomie? ..... *J. Edgar Guimont* 329
Review of Publications (*Yankee Stargazer, the Life of Nathaniel Bowditch*, by Robert Elton Berry; *F.S.H. Weather and the Ocean of Air*, by William H. Wenstrom; *Alvin Thiessen. Essentials of Astronomy*, by John Charles Duncan; *C.A.C. From Copernicus to Einstein*, by Hans Reichenbach; *C.A.C.*) 333
Notes and Queries (Death of Captain Everall; *C.A.C.* An Eighteen-inch Reflector Available; *F.S.H.* Victoria Summer Course in Astronomy; *F.S.H.*) 336
Meetings of the Society—Winnipeg, Victoria 338

VIII. OCTOBER

Early American Astronomers ..... *S. A. Mitchell* 345
Does Anything Ever Happen on the Moon? (continued) ..... *Walter H. Haas* 361
Review of Publications (*Star Maps for Beginners*, by I. M. Levitt and Roy K. Marshall; *F.S.H. Principles of Stellar Dynamics*, by S. Chandrasekhar; *R.K.Y.*) 377
Notes and Queries (Observations of the 1942 Perseid Meteors; Thoreau's Rainbows; Errata; *C.A.C.*) 379
Meetings of the Society—Toronto, Vancouver 383

IX. NOVEMBER

Research at Mount Wilson Observatory ..... *Walter S. Adams* 393
Does Anything Ever Happen on the Moon? (continued) ..... *Walter H. Haas* 397
Aurore Boréale venant du Sud (with Plate XVII) ..... *Jos. Edgar Guimont* 409
The Asteroids ..... *E. S. Keeping* 411
Thirty-first Annual Meeting of the A.A.V.S.O. ..... *D. W. Rosebrugh* 421
Notes and Queries (Edmund Halley and Isaac Newton; The Equation of Time; Indian Summer; Driving through a Rainbow; *C.A.C.*) 425
Meetings of the Society—Edmonton, Toronto 429

X. DECEMBER

Effects of Radiation Pressure on Cosmic Dust ..... *Francis P. Morgan* 441
Depuis 400 Ans ..... *A.-V. Madge* 445
The Civil Week and Mental Week ..... *C. E. White* 449
Calendar Date by Key Number ..... *C. E. White* 451
Dates by the Sunday Number ..... *C. E. White* 454
Her Majesty's Magnetical and Meteorological Observatory, Toronto (continued) ..... *A. D. Thiessen* 457
Conversion of Mean and Sidereal Time ..... *C. A. Chant* 473
Notes and Queries (A New Distant Planet; *C.A.C.* Jupiter and Satellites I, II, III, IV, during 1943; *Charles E. Apgar.* Verses by the Recorder of the R.A.S.C.; *C.A.C.*) 478
Meetings of the Society—Minutes of Summer Meetings, Toronto, 1942 480
Index to Volume XXXVI, 1942 481
